

Nobody Does It

Timothy Bloom

When you said you love me, you took away my blues
I wanna be loved, by you and only you

Nobody does it, nobody does it like you baby

I could have all the riches, but I'm poor without you babe
You set up the score now, if I'd win or loose

Nobody does it, nobody does it like you baby

Darling, you're made for me, like I'm made for you
Shiny and new
And honey, you needed me, like I needed you
Who ever knew

You feel me, like I feel you baby (baby)
Hear me, like I hear you
Words apart, you came and find my heart
