

Rivers Run Deep

Timothy Bloom

The delicate sent of sex still floats in the air
Because last night I made you sweat out your hair
You're lying right next me
And all I want to do is watch you breathe
Making love to you is no simple task
And I hope I had all the skills to handle that
Do my words entrance your mind?
'Cause my tongue takes the time to find

That ecstasy is buried underneath
Where rivers run deep
Woohoo

Last night I thought you just wanted to sleep
But then you flipped the script and you mounted me
You grab the robes and off we go
Midnight star in a rodeo
You wake up with hunger in your eyes
Then you put your hands between my thighs
Now round two, I can read all of the signs, baby (Wooh)

That ecstasy is buried underneath where
Rivers Run Deep
Oh oh
That ecstasy is buried underneath where
Rivers Run Deep
(Where Rivers Run Deep) deep, oh deep
(Where Rivers Run Deep) deep

Wherever this river floats, I wanna float
I wanna float with you
Wherever this river floats, I wanna float, float
Float with you

I'm gonna take my body whole, I'm gonna float
Baby I'm gonna float with you, I'm gonna float with you
Baby, I'm gonna float with you, yeah
Baby, I wanna float with you
