

Still

Timothy Bloom

If there was a question about my intentions
There's this part of me inside I'm still missing
I'm still, I'm still
Trapped inside this loneliness of my mind
There's no way to running, no place I can hide
I'm still, I'm still

Storms are raging
The fire is burning
Be still, be still

Love just flat-lined, tried revive it but ooh
Still, all of me still isn't right
I'm cold as the still of the night
Still in my heart it [?] like nothing, my worst day
Still, still, still, still
Before you came along I thought I had it harder
Still, still, still

It's something like voodoo, I'm trapped in this spell
Down here I'm under this feeling like hell
I'm still, I'm still
If I could put time in my hands I'd reverse it
Then take us back to the time it was perfect
I'm still, I'm still

Storms are raging
The fire is burning
Be still, be still

Love just flat-lined, tried revive it but ooh
Still, all of me still isn't right
I'm cold as the still of the night
Still in my heart it [?] like nothing, my worst day
Still, still, still, still
Before you came along I thought I had it harder
Still, still, still

Oh baby, oh babe, baby
Alright
Yeah
