

The Beginning (Work It Out)

Timothy Bloom

You know, when you love somebody
You gotta treat them kind, yeah
And If you out there, you've got that good one
Never let her go
Let me tell you why...

I took her love for granted
She stoles my heart, let me stand here
What I'd do, to get it all back
My love, my love

Work it out, work it out
Work it out, (yeah) work it out

Last time we kissed, oh I've treasured
'Cause missing those lips are now forever
Going to sue, oh hey, just to get that woman back baby
It's driving me crazy
Yeah I gotta gotta work it out

Work it out (hey yo hey hey), work it out
(Protect that woman, protect her hard)
Work it out, (yeah, you're right, yeah) work it out (hey oh)

You never miss a good thing until she's gone
Then you find yourself all alone
If you're hearing what I'm saying
Y'all, yeah gotta gotta work it out

Work it out (hey hey), work it out (yeah)
Work it out, work it out (yeah)
