

## A Big Hurt

Tin Machine

To meet her once is to know her through and through  
I know, I know  
But it ain't finished till the fat lady sings  
I know, I know

How can I help you?  
You're just a wanna be  
I'm a believer  
You're a sex receiver

And me with a big hurt  
You know I had a big hurt  
From the very start

I'm hurtin' so bad  
'Cause you're my room mate from hell

Got to take some blows on the stepping stones  
Speak in extremes, it'll save you time  
You were a saint abroad but a devil at home  
Come on here, wo woo, and kiss it for me

To meet her once is to know her through and through  
I know, I know  
Even a glass eye in a duck's ass can see that  
I know, I know

I'm hurting so bad  
And here come the Indians, ooo

Got to take some blows on the stepping stones  
Speak in extremes, it'll save you time  
You were a saint abroad but a devil at home  
Come on here, woo woo, and kiss it for me
