

Destination Unknown

Tina Arena

Unknown around and round in circles
She is unknown
Smiling, only three hours old, unknown
I think about who left you, it's so cold
Still smiling with so much to share

Around and round and round you go
Never to know you were alone
How did you find your own way home?
Destination unknown
[x2]

Still chasing butterflies
Evading all the lies, who could blame her?
Cause that's what saved her
Violet gray was in her eyes
Lines of life with no disguise
That's what saved her
The smile had named her

Around and round and round you go
Never to know you were alone
How did you find your own way home?
Destination unknown
[x2]

Ooooooh, walking down that road
New life awaits you
Let love embrace you
And ooooooh, I'm so glad I know
I got to meet you and let you go

Around and round and round you go
Where does it take you no one knows
When all the roads will lead you home
No destinations are known
Destination unknown

Around and round and round you go
Never to know you were alone
How did you find your own way home?
Destination unknown
[x2]
