

# Nothing to Fear

Tina Cousins

Come to me and I'll light your darkness  
Baby breathe me deep, and I'll make you conscious  
Cause I can give you peace and I can make it right

So close your eyes, everything will be alright  
Nothing to fear as long as I'm here  
Close your eyes now

Close your eyes and feel me around you  
And baby let me show that I'm all you need to know  
Just ease your mind there's nothing to fear now  
Cause I can give you love and I can make it grow

So close your eyes, everything will be alright  
Nothing to fear as long as I'm here  
Close your eyes now

Let me show you love can be beautiful  
Let me show you love can be wonderful  
i know you have a wounded heart  
But I can make it heal  
And I will never turn away cause myt love is real

So close your eyes, everything will be alright  
Nothing to fear as long as I'm here  
Close your eyes now
