

Open Wide

Tina Dickow

Come and take my hand
It's been so long
Since tender words last fell
From our sharp tongues
Tell me, tell me now
Where we go wrong
Tell me there's a way if we
Press on

And keep our arms open wide
Don't say no to anyone
But keep our hearts safe inside
Don't let go to anyone
And raise above the chaos of love
Of love

Come and hold my hand
You look confused
You give your best
And then you end up feeling used
Tell me why you struggle
Like you do
To draw the line between the world
And you

Just keep your arms open wide
Don't say no to anyone
But keep your heart safe inside
Don't let go to anyone
And keep your heart safe from harm
Safe and warm in your hand
And raise above the trials of love
Of love

Come and hold my hand
It's been so long
Since tender words last fell
From our sharp tongues

We'll keep our arms open wide
Don't say no to anyone
But keep our hearts safe inside
Don't let go to anyone
Yeah, keep our arms open wide
Don't say no to anyone
But keep our blood safe inside
Not on show for anyone
And raise above the chaos of love
Of love

Come and take my hand
