

Paper Thin

Tina Dickow

Travelling the seven seas
Setting sail to go around the world, around the world
Open water, open heart
Open invitation to be whirled around the world
Spread your wings and spread them wide
See if they'll reach all around the world

I just wanted to fly, fly
Like a leaf in the wind
A leaf in the wind
But if you wanna fly, fly
You've got to travel light, light
And make yourself paper thin
Paper thin

Pack a bag but pack it light
You can't carry much around the world
Even what you hold dear of who you are inside
Could be too much dead weight for this ride around the world
When you spread your wings out wide and thin
Just pray they'll hold you up till your home again

I just wanted to fly, fly (around the world, around the world)
Like a leaf in the wind
A leaf in the wind
But if you wanna fly, fly (around the world, around the world)
You've got to travel light, light
And make yourself paper thin
Paper thin
