

# Save Me

Tina Dickow

Cit's hard to find the words when you can't speak  
When you can barely walk on your own feet  
You're crying for my help but i'm outta reach  
I should be a dream in your nightmare  
But i get so weak when i get scared  
Shouldn't run away when you need me there

Putting on my biggest armor  
Tryna keep my head up for ya  
Wanna put out every fire  
In your mind

But how can i save you when i need you to save me too?  
You're begging me for air but the truth is i can't breathe  
So how can i save you when i need you to me too?  
I'd wish that i was stronger than this, i'm sorry  
Save me, save me

I have this dream where i always drown  
I'm waiting for your steps but there's no sound  
I sink to the bottom 'cause you're not around  
And you could be the night in my nightmare  
And i should be the hope in your despair  
Instead of running off when you need me there

Putting on my biggest armor  
Tryna keep my head up for ya  
Tryna hold in all the fires  
In my mind

How can i save you when i need you to save me too?  
You're begging me for air but the truth is i can't breathe  
So how can i save you when i need you to me too?  
I'd wish that i was stronger than this, i'm sorry  
Save me, save me

Ooh, don't lose your faith in you and me  
We'll get through  
This storm 'cause storms don't last forever  
I know we look like a dead end  
Two hearts too cold to be fighting  
Ooh, i hear you scream my name but

How can i save you when i need you to save me too?  
You're begging me for air but the truth is i can't breathe  
So how can i save you when i need you to me too?  
I'd wish that i was stronger than this, i'm sorry  
Save me, save me

Save me, save me  
Save me, save me
