

I See Home

Tina Turner

First night by your side I knew I found a friend
I haven't have this feeling inside since I can remember when
I've waited a long time to touch you for the first time
And made it my last time
I feel safe and warm in your arms
'Cause when I look in your eyes I see home
I feel safe and warm
'Cause I see home
I see home

Sometimes it doesn't work out and the friend hand's all the fool
Best friend you ever had couldn't be your lover too
But I dreamed of the woman you could make me but I look for you
And you where nowhere
I was blinded by the site
'Cause when I look in your eyes I see home
I feel safe and warm in your arms
'Cause when I look in your eyes I see home
I'm safe in your arms
'Cause I see home
I see home

The kids can be stolen but no not love
It's a gift that's givin to me
And when the talent of me was afraid to reach out
The love in you
Made me
It made me see
I feel safe and warm in your arms
'Cause when I look in your eyes I see home
I'm safe in your arms
'Cause I see home
I see home

Now I feel safe and warm in your arms
'Cause when I look in your eyes I see home
Now I feel safe and warm in your arms
'Cause when I look in your eyes I see home
Now I feel safe and warm in your arms
'Cause when I look in your eyes I see home
Now I feel safe and warm in your arms
When I look in your eyes I see home
And now I feel
I feel
I feel safe and warm in your arms
'Cause when I look in your eyes
When I look in your eyes
And I keep looking every where
I've been feeling for you arms
I've been searching for you love
'Cause when I look in your eyes I see home
Safe and warm in your arms
When I look in your eyes I see home
