

The Love That Lights Our Way

Tina Turner

Lord, just give the sign - I'll be first in line;
Make me strong and steady when it comes...
Fill my heart with courage so I'll stand tall,
When we show them that love can conquer all...

God bless all the weak, God bless all the strong,
God bless all the children who go wrong...
Bring us closer together - don't let us stray
From the love that lights our way...

God, please, bless the rich... Please, God, bless the poor;
God bless all the babies born today...
Let them grow (together) wisdom, and all the loving grace,
In a world where all men have a place...

Someday, I'll be gone - time will go right on,
Sister Oak still standing in the sun...
Children, count your blessings one by one,
As we walk in the love that lights our way...

Lord, just give the sign - I'll be first in line;
Make me strong and steady when it comes...
