## **Whatever You Want**

## **Tina Turner**

Whatever you want me to do I will do it for you Whatever you want me to be I will be what you need Because it's love that I feel whenever you're really near I'm feeling sensual I can't rely on myself, I'm wanting you and no one else You've got me wrapped up Cause times takes what love heals Wherever you are I know it's for real

Whatever you want me to do, I will do it for you Whatever you want me to be, I will be what you need Because it's love that I feel whenever you're really near I'm feeling sensual And I, I know that it's real

I know you've had pains in your heart, that have torn you apart

I know you've been safe on your own, but together we're strong Because it's love that I feel whenever you're holding me I'm feeeling passionate And I can't deny it in myself, I'm wanting you and no one else You've got the power Cause love takes what time steals And deeep in my heart I know that it's real

Whatever you want me to do, I will do it for you Whatever you want me to be, I will be what you need Because it's love that I feel whenever you're next to me I'm feeling sensual I know (know), I know (I know) that it's real

Cause times takes and love heals Wherever you are I know it's for real I know, I know that it's real

Whatever you want me to do baby, baby, baby I will do, darling, do it for you Whatever you want me to be, yeah I will be everything Because it's love that I feel whenever you're really near I'm feeling sexual It's time that I breathe for the love that pleases me Too easily, easily, baby
