

# Know Better

Tinashe

Bongo by the way

Sitting here with my thoughts in a bottle  
Every time I take a sip, I'm reminded of you  
Like how you been  
Wait a minute, what am I doing?  
It feels different when you're not around

Never thought that this would be us  
I fell away, I fell away, baby  
I was fighting but you gave up  
Now you fell away, you fell away  
And I

Wanna love you but I know better, better  
Wanna kiss you but I know better  
I know better baby  
Wanna kiss you but I know better  
Got me telling all my secrets  
Got me in and out my feeling's tonight

Who was wrong, who was right  
Doesn't matter, it will fade over time  
It was what I'll tell myself  
Hit decline on my line when you call now  
I'm distant, t's different with you, whoah

All those nights cried over us  
Where were you then, where were you then, baby  
I don't wanna feel that again  
I'm still afraid, I'm still afraid  
And I

Wanna love you but I know better, better  
Wanna kiss you but I know better  
I know better baby  
Wanna kiss you but I know better  
Got me telling all my secrets  
Got me in and out my feeling's tonight  
Wanna love you but I know better, better  
Wanna kiss you but I know better  
I know better baby  
Wanna kiss you but I know better  
Got me telling all my secrets  
Got me in and out my feeling's tonight

Oh, oh, oh, oh, oh, oh baby  
Oh, oh, oh, oh, oh, oh baby  
Oh, oh, oh, oh, oh, oh baby  
Got me telling all my secrets  
Got me in and out my feelings tonight  
Telling all my secrets  
In and out my feelings tonight

Somewhere over the horizon  
Sun is rising on you with no me  
I would put my pride aside

If you could promise to be worth-waited  
Hoping that you think about us  
Sometimes I'm still leaning on the lonely  
Another broken heart, another day  
When I fall in love, I guess I'm always gonna stay  
Living like a ghost on haunted  
All I want is to feel like the old me  
Fade away a little slower  
I go over every word you told me  
If it was all last then why did I feel  
I'm in heaven when you hold me  
Another broken heart, another day  
When I fall in love, I guess I always find a way

Still feels like I could fall in pieces when I hear your name  
Hoping just a little that you feel the same, anyway  
Honestly what's another break up to a girl like me  
I could find another lover easily and you know it  
Tell me

Did you notice?  
I've been doing just fine  
As I could never hear and tears all dried  
Did you notice?  
Did you notice me?  
Did you notice?  
I've been doing okay  
Don't even think about you every single day  
Did you notice me?

Still feels like I could fall in pieces when I hear your name  
Hoping just a little that you feel the same, anyway  
Honestly what's another break up to a girl like me  
I could find another lover easily and you know it  
Tell me

Did you notice?  
I've been doing just fine  
As I could never hear and tears all dried  
Did you notice?  
Did you notice me?  
Did you notice?  
I've been doing okay  
Still think about you every single night and day  
Did you notice me?
