Tinashe

Oh, I hope this don't turn serious  
But baby when you come around  
I can't seem to let those eyes go  
Maybe I'm just curious  
Cause I ain't ever been here before, no

I ain't that girl  
No, no not me  
I watch them fall  
They watch me leave  
And I have never worn my heart on my sleeve  
But now love's looking at me, oh no

Why if it ain't love, I just can't let you go  
And why does it feel like my heart's about to implode  
And I put that on everything  
It never meant much to me  
Being in L-O-V-E

Ride with you, I'll ride with you, die with you  
If anything go down, baby, I'm gon' side with you  
For life, for life with you  
Can't you see I wanna hold you down  
Oh, baby, I'm high with you  
On high, I'm high for the first time in my life with you  
It never meant much to me  
Being in L-O-V-E

You know, lovin' make 'em talk  
Facing your neck, hands on my waistline  
You can see it in the wall  
I'm facing affection even in the nighttime  
You can see it in the doll  
It started with a spark, now it's everywhere that we are  
Don't want to be, this could happen to me

Why if it ain't love, I just can't let you go  
And why does it feel like my heart's about to implode  
And I put that on everything  
It never meant much to me  
Being in L-O-V-E

Ride with you, I'll ride with you, die with you  
If anything go down, baby, I'm gon' side with you  
For life, for life with you  
Can't you see I wanna hold you down  
Oh, baby, I'm high with you  
On high, I'm high for the first time in my life with you  
It never meant much to me  
Being in L-O-V-E

Ride with you, I'll ride with you, die with you  
If anything go down, baby, I'm gon' side with you  
For life, for life with you  
Can't you see I wanna hold you down  
Oh, baby, I'm high with you  
On high, I'm high for the first time in my life with you

It never meant much to me  
Being in L-O-V-E

Ride with you, I'll ride with you, die with you  
If anything go down, baby, I'm gon' side with you  
For life, for life with you  
Can't you see I wanna hold you down  
Oh, baby, I'm high with you
