

Red Flags

Tinashe

Red flags show me who you are
Yeah, yeah
All bad, boy, you took it too far
Can't keep ignoring the signs
And that's the bottom line
Actions tell the truth every time
And I believed the lies

Visit me on the low
Picking me up, I'll let you know
Acting like my heart not broke
Is it my time, time to let go?
I don't wanna be here anymore
When I see your face, you remind me of my mistakes
I don't wanna stay, don't wanna go

Red flags show me who you are
Yeah, yeah
All bad, boy, you took it too far
Can't keep ignoring the signs
And that's the bottom line
Actions tell the truth every time
And I believed the lies

How did we fall off?
Where did we go wrong?
Still tryna hold on
Left me all alone
Me, myself and I
Made this house a home
But I can't stop thinking about you when you're gone

It was a fast no, turned into a slow yes
Now I know, don't wanna miss out on this
You said don't go, oh, every time that I try to leave
'Cause you can't stop thinking about, thinking about me
