Change

Strangers are moving in the strangers ways
Lost on the journey they better use wayze
Regularly, making the same mistakes
Don't be stuck in your ways, Change is great
Don't be afraid, it's life embrace
Finding myself, I've been in that maze
Telling myself, the same nothing stays
Tell Tinchy Stryder to listen to kwase
So I had to (two) hands on
Amen I got blessed with a new born
On
Excited I'm beeping, toot horns
Answered prayer so laid my eyes
Amen I got...
Yes she's precious my baby's good
Blessed & healthy... God is good
My love for mummy's for life what's good
Priorities change in life they should

In the game I've seen darkness
Also been on the island with Darcus, yeh
Made my name they still doubt us
That made me doubt myself, couple reflective years
Snap out & get out & back into gear
Hop in the spaceship, slide into gear
Yeah that's basic, don't interfere
It's meant to be, there's nothing to fear

A bit above standard, raising the standards
That's right, I'm rating myself hays standard
Hold your mouth, we ain't looking for no pundit
Talking facts I ain't missing out 1 bit
I wasn't there cause I wasn't invited
No word & it wasn't in writing
Caught up in my feelings tied in
Then I saw Light, angels guiding
Working we really are
We stay busier, outright buyer
Property juggler
Live shows with the fans on a regular
Without you, there's no me... I'm loving ya
Rate my craft but respect my heart
Figuring out the purpose & path
Done with he games now, go take your cards
Steadily balanced, no overdraft
Can't wait all in my shoes, stop forcing
Wrong size, real life experience talking
Wasting time on he least important
Focus on the bigger picture it's awesome
What comes 1st
Exit, what comes next is worse
X'd it they tried to cross out works
We're still not hurt
Holy water, blessed not cursed
If that's what you want, then you got what you want

Why do you hate on them? Cause they've got what you want
Go with the heart, don't follow what's known
Who decides on the news that shown
It's all controlled or is it though
Is what you know or who you know
Is it what didn't or what you chose
Get over that, stay high with smoke

All day, everyday keeping it the same
And you wonder why nothings changed
Strange
Stainless cutting through, dipping down lanes
Brainless, the madness is getting insane
Backwards thinking, that's getting exchanged
Can't put a lid on this, they can't contain us
Loudest pack filling up containers
Cloud 9 repping, these highs are dangerous

Promises, they're just promises
It's a fact that it will not what if it's
Some fail to stick to promises
At times, that stems from selfishness
I can promise this, they're just promises
Some fail to stick to promises
They're just promises
I can promise this they're just promises
