

# Misunderstood

Tinchy Stryder

Uh, see I could've been a baller, hat-trick a game  
Football could've been my lane  
Tick-tock baller, music change  
Far from the size of my name  
Call me a baller, top is the aim  
Jump up, leap on the game  
Cloud 9 diver, I stays on my feet  
This girl claims I'm a cheat  
Your girl high-fived her, they don't understand us  
We've got the latest, came on the night bus  
They're not nothing like me, nothing like us  
Yeah, we know it's okay, you don't like us  
Don't mind me, I'm just abusing my powers  
Facing the truth, got her loose on the cowards  
Raising my voice on the roof of the towers  
Telling in minutes, not hours, cause we're

So misunderstood like the shadow in the dark  
Takes more than eyes  
So misunderstood like the shadow in the dark  
Takes more than eyes

Uh, see I could've been a baller, hat-trick a game  
Tick-tock baller, music change  
Call me a baller, top is the aim  
Cloud 9 diver, cloud 9 skyliner, that's right so I stand up taller

Had a couple of laws, you know  
Couple missed calls and a couple of doors, you know  
Had affairs with celebs, suppose you know  
Snap snap, paps flash, I'll strike a pose  
And it doesn't make sense  
Tryna show love but you're looking all tense  
Misunderstood like we're never taught sense  
Fuck sitting on the wall, and I'm over that fence  
Now listen to my rap  
Facing the truth, fuck standing behind that  
Check 1, 2, flow, turn up the hi hat  
Like that, yep, now I can say dat  
Please believe in your word  
Speak up or you won't get heard  
Tell him to trill, observe  
Me, you, him or her, we all feel

Higher, higher  
Higher, higher  
Higher, higher

So misunderstood like the shadow in the dark  
Takes more than eyes to see who we are
