Below the belt but, higher than knees
Low blows, yh they're firing these
Follow the real, stop lying please

Falling deeper & deeper in love with the music, more than roman

Went back, got back in touch my roots
Fell in love in-starnt (instant)
Dazed, your dreaming, dat Trance
WatchIng, I see dem quick Glance
Flexing, posing, this stance
Kente clothing, sick garms
I'm switched on, flick switched on
I step correct, Nike ticks on

Back from home, got a top up
Local shops, we pop up
Move with the lies you cough up
Good energy let's stock up

Clean sheet, shot stopper
No filter don't crop up
Shut down shop & lock up
Around the block, you're racing leaving yourself
Chasing down, outpacing yourself
Future, well alarming bells
The time is, now, we timed it well
Around da world, you're taking, making it well
Take it down, make notes aswell
Ding dong, alarming bells
The time is, now, we won't fail
