

## Bad Side

Tink

Just the other day we had a normal conversation  
Now we fighting and he telling me he hates me  
Telling me I'm nothing  
I just wanna love him

Hate it when we fighting and cursing all in the driveway  
Now we ain't been talking from Sunday, Monday to Friday  
I think I should hit you but talking is not an option  
Talking is not an option

Goddamn, I'm missing your phone calls  
Your body up under mine  
When it's cold as the wintertime  
You treated me wrong  
I treated you foul  
But I ain't gon' try to act like I'm over you now

Talking to myself  
Wanna know just how you felt  
Are you lonely while I'm gone  
Or did you meet somebody else?  
Is she taking care of you?  
Can't believe we're really through  
If you ever feeling lonely  
Then you know just what to do

Blow me up  
Oh, now, baby  
Blow me up  
Ooh, yeah, ooh, yeah, ooh

You been on my bad side  
But I ain't gon' act like  
I don't want you here with me  
You get on my last nerve  
But I ain't gon' say a word  
'Cause I want you here with me, baby

You been on my bad side  
But I ain't gon' act like  
I don't want you here with me  
You get on my last nerve  
But I ain't gon' say a word  
'Cause I want you here with me, baby

Blow me up  
Blow me up

Just the other day you was saying this was forever  
Now you're out here searching and looking for someone better  
Tryna make it even  
Giving me the silent treatment

Now I'm having questions, I'm thinking why wouldn't you answer  
I wanna know what's up but it's probably too much to handle  
I think I should hit you  
But talking is not an option. No more

Goddamn, I'm missing your FaceTime  
Your body up under mine  
When you holding me while crying  
You treated me bad  
And I treated you wild  
But I'm not gon' try to act like I'm over you now

Talking to myself  
I don't know what else to say  
Me and you were super tight  
And now it's like we night and day  
Is she taking care of things?  
Do you call her by my name?  
If you ever need somebody  
Yeah, my number's still the same

Blow me up  
Yeah, yeah, yeah  
Blow me up  
Yeah, yeah

You been on my bad side  
But I ain't gon' act like  
I don't want you here with me  
You get on my last nerve  
But I ain't gon' say a word  
'Cause I want you here with me, baby

You been on my bad side  
But I ain't gon' act like  
I don't want you here with me  
You get on my last nerve  
But I ain't gon' say a word  
'Cause I want you here with me, baby
