

Falling in Love

Tink

I done fell in love with the real thing
Even though you make me mad, I could never leave
When I met you I was hoping it would last
And it ain't about you money or your bag
My feelings on the line
You got me making time
I ain't never met a man who could love me like you
You put me on the top and I like the way we rock
And I promise I'ma love you 'til my heartbeat stops
More than a friend
You my one and only
You tell me its real and I feel it when you hold me
Love me and touch me and tell me that you need it
You my dog and I'm with you for a reason
Keep it real
If its anything you need
I be jumping in my car give no fuck about the speed
I'ma do all that I can just to show you that I got you (got you)
Sing to you like an opera, babe

Can't deny I'm in love and in feels really good
It feels really good
Can't deny I'm in love and in feels really good
Baby you know that I love you so much
I'll never leave you for nobody else
(Falling in love, falling in love)
You know how I'm coming for you
Nobody loves me the way that you do
(Falling in love, falling in love)

Tune up in yo bed
Rubbing on yo head
Kissing on my spine, but I feel it in my legs
I be in yo ear telling you to keep going
Even if we at odds, I could never do you bogus
Hella bitches wanna have you
I'm the only woman that can bag you
Got me intertwined
And I'm jealous over mine
If my nigga ever leave, then somebody gone be dying

Can't deny I'm in love and in feels really good
It feels really good
Can't deny I'm in love and in feels really good
Baby you know that I love you so much
I'll never leave you for nobody else
(Falling in love, falling in love)
You know how I'm coming for you
Nobody loves me the way that you do
(Falling in love, falling in love)

(Baby you know that I love you so much
I love you so much, yeah)
Damn, I've never had love
(I'll never leave you for nobody else, I'll never leave you for nobody else)
I've never had a love like this
(You know how I'm coming for you)

Nobody loves me the way that you do)
Cause when its real it's just different
(Falling in love)
Unconditional
(Baby you know that I love you so much)
Regardless of what
I'll never leave you for nobody else
You already know how I'm coming for you, oh...
I really love you babe, love you babe
