

Fight It

Tink

Yeah, oooh
Baby let's not fight it, fight it (Yeaah)
Baby let's not fight it, fight it
Ooooh

Baby let's not fight it, fight it, fight it
We both know we want it, want it, want it
Baby let's not fight it, fight it, fight it
We know what we doing, doing, doing
Hold on me, me yeah
Cause I don't wanna front no more
Baby I can't say no
When you get me weak, weak yeah
I don't wanna front no more
I don't wanna front no more

Please, don't break my heart
I just wanna lay in your arms
Yeah lemme put my love on you
Oh lemme tell you what I'm gone do
Need somebody, can't deny it, I won't fight it no
And i'll be honest, I can't hide it
Boy I like it slow
Promise I won't hold nothing back
I think that it's time, time

It's time to stop playing
You here what im saying
It's time we cut the bullshit out
Lets keep it real
Both of us are feening
And right about now we need it
It's time we got to force it out
Lets keep it real
So, if you feel the same as me
No doubt, feeling like this could be a dream
Round for rounds, dont say no, when I mean yes
You got me bugging out

Baby let's not fight it, fight it, fight it
We both know we want it, want it, want it
Baby let's not fight it, fight it, fight it
We know what we doing, doing, doing
Hold on me, me yeah
Cause I don't wanna front no more
Baby I can't say no
When you get me weak yeah
I don't wanna front no more
I don't wanna front no more

Please, don't break my heart
You're the best I'd ever had so far
Oh, they ain't got nothing on you
Oh, baby tell me what you gone do
Show me a love and kiss and cuddle, lets be in love
It ain't no telling What we're doing, we don't have to rush
Promise not to loose my direction

I think that its time, time

It's time to stop playing
You know the hell what im saying
It's time we cut the bullshit out
Lets keep it real
Both of us are feening
And right about now we need it
It's time we got to force it out
Lets keep it real
