

## Fly Away

Tink

(Oohhhhh-yeaaaah-ee)

Can we fly away tomorrow  
Fly my plane up on the beach  
Can we lay down in the sand  
Write our names under our feet  
Can we hold each other's hands  
Can we cancel all our plans  
Can we make a little time  
Just for me and you  
I gotta just get away  
From all these issues at the crib  
I love you cause I trust you  
Not to judge me for my sins  
I swear I didn't see it  
Cause at first I ain't believe it  
I think I found a man  
And never once gave me a reason to  
All I need, and I bleed  
When he's away from me  
Resisted you at first  
But you told me that you would wait for me  
There you are, affecting me like a star  
When people work on my nerve  
My nigga get on his job  
Let's take a break, baby  
Tell me what I do to you  
Love it when you stare at me  
And tell me that I'm beautiful  
Know you've got my back  
So when you here I feel relaxed  
And when you gone  
I feel wrong I call your phone  
I'm coming back, babe

Cause I, I, I wanna fly away with you  
I, I, I wanna fly away with you
