

I Choose Me

Tink

Drinkin' out this wine glass
Tryna make time pass, by
I can't lie it's been 7 days with no call
Staring up at this wall
Don't know where this went wrong
Found your side girl
And I know that she a Cancer
Trickin' off on her
Anytime he in Atlanta
Phone on don't disturb
I got all the right to fight you
'Cause I told you boy I ain't the one to lie to

I choose me now
I choose me now
I choose me
Ain't nothin' worth more than my peace

Drinkin' on this red wine
Way past my bedtime, yeah
But I can't fall asleep when someones there fuckin' you
Playin' house walkin' 'round in my shoes
Found your side girl
And I know she works at Onyx
Up at 3am
And I been scrollin' through his comments
Dizzy off this wine
Spendin' my nights here wasting
Thinkin' 'bout the time I've wasted

I choose me now
Never let a nigga treat you like his rebound
I choose me
Ain't nothin' worth more than my peace
Whoaa (Whoa)
(I choose me now)
