

## Jupiter

Tink

This feels better than I expected  
Never thought that I'd be pressin'  
Up on you for more and more, either I'm better or  
Just to let a trophy ring  
This feels better than I expected  
He says yes, baby tonight I've learned my lesson  
This is pain above my spot  
This is loud as hell with the doors locked

This feels, this feels, this feels  
Ju Ju Jupiter  
This feels, this feels, this feels  
Ju Ju Jupiter

Feel it in my toes, I'm not lettin' go  
Scratch yo back up so you know  
How it feels, put it down  
Turn around, thats what you like  
Take me to the moon, due me till its noon  
This is freakier than Prince, feel it in my legs  
And my chest, and my neck, what a mess  
We made it here  
Were going to have to get creative  
Thats when it will be the greatest  
Cause we ain't coming down  
So high up we in the clouds  
Smoking on tree, while you stroking on me

This feels, this feels, this feels  
Ju Ju Jupiter  
This feels, this feels, this feels  
Ju Ju Jupiter

Baby my body's getting cold  
Please don't leave me here alone  
Baby my body's getting cold  
Please don't leave me here alone  
This feels, this feels, this feels  
This feels, this feels, this feels
