

Lessons

Tink

You thought I would break
You thought I would never fall in love again
You thought I would drown when you showed me the real
Losin' you just made me go and find myself
Thank you for the lessons that you taught me

You thought I'd be broken, especially when you caused it
Thinkin' I'm somewhere deep in my emotions
But I'm here focused
You thought you'd bring me to my lowest
You thought I would need you
Thought I'd be back lookin' for closure
So glad it's over

Thank you for the lessons that you taught me
Your loss but I sincerely will not forget
Will not forget

You thought I would cry
I didn't know a garden grew with water from my eyes
(Ayy, ayy, ah, ah)
You thought I'd stuck with my back on the wall
Ten toes down, yeah I still stood strong
Thank you for the lessons that you taught me

You thought I'd be broken, especially when you caused it
Thinkin' I'm somewhere deep in my emotions
But I'm here focused
You thought you'd bring me to my lowest
You thought I would need you
Thought I'd be back lookin' for closure
So glad it's over

Thank you for the lessons that you taught me
Thank you
The lessons that you taught me
For everything you put me through (Ayy, ayy, ah, ah)

'Cause without the rain
I'd never see the sun again
(Your loss but I sincerely will not forget)
So thank you (Will not forget)
Thank you
