

Motives

Tink

My love was real but I'm questionin' yours
Ooh woah, ooh woah, ooh woah, woah
My love was real but I'm questionin' yours

Hmm, I should've know we was fallin' apart
My intuition was tellin' me you wasn't shit from the start
Tell me you want me and then leave me lonely
Whenever your niggas around
It's not addin' up, can someone help me figure this out?
Just when I thought that I knew you for sure
You show up less and you start cheatin' more
They tried to put me on game
All of this time you was just in the way, oh
See, you're so unworthy of me and my tears
You said you was with me but I should've known that you wasn't sincere
You don't belong in my life
Maybe we're not meant to be
Don't give no fuck 'bout a new Bentley truck
If it don't come with no loyalty
Draggin' my name through the mud
'Cause you can't own up to your flaws
Playin' the victim, I thought I could I pick 'em
But I must be doin' it wrong

What is your motive with me? (What is your motive with me?)
If this isn't workin' then why are you here?
Can't be with you 'cause you moving too weird
What is your motive with me? (What is your motive with me?)
I'm just so over the back and the forth
My love was real but I'm questionin' yours

My love was real but I'm questionin' yours
(Yours, yours, yours, yours)
(My love was real but I'm questionin' yours)
Ooh woah, ooh woah, ooh woah, woah
My love was real but I'm questionin' yours
(My love was real but I'm questionin' yours)

Feelin' uncertain right now
Niggas be movin' so foul
I don't know what to believe anymore
'Cause you set me up when you lied in my face
About what you was doin' with Tanya
And I just don't get it, just found out she pregnant
And word on the streets, you're the father
I thought your intentions was pure
Givin' so much that I'm drained
Can't do no cuffin', I trusted your judgement
And that was my biggest mistake
I let you get way too comfortable, yeah
You had me fucked up on so many parts
You save me for later, now just like a stranger
Don't recognize who you are

What is your motive with me? (What is your motive with me?)
If this isn't workin' then why are you here?
Can't be with you 'cause you moving too weird

What is your motive with me? (What is your motive with me?)
I'm just so over the back and the forth
My love was real but I'm questionin' yours (Oh, oh, oh)

My love was real but I'm questionin' yours
(Yours, yours, oh, yeah)
(My love was real but I'm questionin' yours)
Ooh woah, ooh woah, ooh woah, woah
My love was real but I'm questionin' yours
(My love was real but I'm questionin' yours)

Feelin' uncertain right now
