Nah, like, nah, nah, nah
Take it slow

Look, I'm invested in you and you know it
When you say you love me, that shit get me open
I'm used to niggas that play with my feelings
Tonight I'm gon' fuck you just 'cause you the realest, oh, yeah
I do this shit 'til you tired
You make my body sing like the choir
Ain't no mistakin' it, you make me feel comfortable naked
And that's why we ain't gotta fake it
Pull up on you with no makeup, just gloss and mascara
You filming me like a trailer
That's what I need on the daily
No pedal, but you drive me crazy
You got me talking like you when I'm speaking
I call you papi like a Puerto Rican
Fuck all my exes 'cause they weren't deservin' it
You kill this pussy as if you was Persian
That's why I'm locked in
You on my mind like a conscience
I got you regardless
You take away all my problems
I 'preciate you 'cause time is expensive
Boy, I've been lonely and I need attention
I need a friendship and I need a partner
Boy, you been reading me like I'm a author
You swept me up off my feet like a sandal
Ex-nigga switched up on me like a channel
And that's when you show me the difference
You don't need no jersey to play your position, ayy
Ain't felt this way in a while
You know my truth, that's why you stick around
Boy, you my hero, now let me be Robin
I'm straight from Chicago, you know how we rocking, oh, yeah

Never had a nigga who protects me
Every day with you is like a blessing
Never had a nigga show me love
Never had a nigga I could trust, no
Never had a nigga who completes me
I'ma hold it down if you need me
Never had a nigga this real
Never had a nigga I could feel, oh
Never had a nigga who protects me
Every day with you is like a blessing
Never had a nigga show me love
Never had a nigga I could trust, no

Dropped my location, now you on the road
You make me moist when your name in my phone
Damn, that shit crazy, I need you to slide

Hop in your car, you got pounds on the side, damn
You got me weak to my knees
Put me on game like you play for the league
Boy, I've been guarded from things in my past
I knew you was real when you gave me your last
It ain't no secret, you fuck with me heavy
I had a nigga, but he wasn't ready
You snuck up on me like two shots of Henny
You know I be blacking when you get up in me, oh, yeah
I got you moaning my name
You fuck with me 'cause my arch ain't the same
Boy, when I'm tweakin', you never complain
Run up this money, ain't chasing no fame

Think about it day and night
Did it when the time was right

To me, by your own surprise
Got me working overtime
And I ain't got no 9 to 5 (No)
Tryna match your energy
Show me that you fuck with me

Every day with you is like a blessing
Never had a nigga show me love
Never had a nigga I could trust, no
Never had a nigga who completes me

Never had a nigga I could feel, oh
Never had a nigga who protects me
Every day with you is like a blessing
