

## On My Own

Tink

(Hitmaka)

Footsteps

Does she walk in my footsteps?  
Does she sleep where we slept?  
All the secrets that we kept, oh-oh  
Hidin'  
You were always tryna hide things  
I was always somewhere findin'  
You make sure to remind me

Tell me lies and I'll believe you once more  
And if you ever cared for me, then let me know  
Tell me that you love her (Woah)  
Tell me that she touched you there, just the way that I did (That she  
do it like I did)  
Tell me that you need her (Woah)  
Make it easy for me, make it easy for me

'Cause I'll never go on my own  
I'll never go on my own  
I'll never go on my own  
So make it easy for me, so make it easy for me, baby

Tired

I'm so motherfuckin' tired  
Now my heart is work-for-hire  
All my feelings are expired, oh-woah  
I know anywhere that you go  
You remember I played my role  
'Til I couldn't no more

But tell me lies and I'll believe you once more  
And if you cared for me, please just let me know  
Tell me that you love her (Woah)  
Tell me that she touched you there, just the way that I did (That she  
do it like I did)  
Tell me that you need her (Woah)  
Make it easy for me, make it easy for me

'Cause I'll never go on my own  
I'll never go on my own  
I'll never go on my own  
So make it easy for me, so make it easy for me, baby

Tell me that you love her  
Tell me that she touched you there, just the way that I did  
Tell me that you need her
