

# Opposite

Tink

How would it feel if you righted your wrongs  
And I did the opposite  
That's how it feels when you playin' your games  
And I'm hoping God forbid  
That you not a product of your past  
We can have that shit that last  
Don't go crazy lookin' bad  
We done ended all bad  
All the things  
That we might do  
Hope I never be the one you lie to  
Be your rider  
Only one that ride you  
Be your comfort when you wanna slide through  
All this game you get from me is not for sale  
You get a chance with me once  
Try not to fail  
Don't fuck with hoes in my city they know me there  
Do me good and I got you  
You know me well

All these eyes on me  
You'll be all I need  
Loyalty and honesty  
Know a bad bitch when you got one

How would it feel if you righted your wrongs  
And I did the opposite  
That's how it feels when you playin' your games  
And I'm hoping God forbid  
That you not a product of your past  
We can have that shit that last  
Don't go crazy lookin' bad  
We done ended all bad  
Yeah, that's yo' conscience  
Second guessin' if you my only option  
Told you once don't come here with nonsense  
If I choose you baby you the top pick  
All the pressure been makin' you feel a way  
Know the vibes you been given' like night and day  
Now we're thinkin' of lettin' it go to waste  
How we ended I can't even explain

All these eyes on me  
You'll be all I need  
Loyalty and honesty  
Know a bad bitch when you got one

How would it feel if you righted your faults  
And not at the opposite  
That's how it feels when you play at your games  
And I'm hoping God forbid  
That you not a product of your past  
We can have that shit that last  
But you don't go crazy lookin' bad  
When it end it's all bad
