

## Route 42 To San Fran

Tink

Check check

You say you hate when I jump to conclusions I just hate when you act so clueless

Show me I can be definite 'cause all I've ever seen is you leavin' from the club with a woman every time that you go out and step in it  
I'm really regrettin' this, meetin' you lettin' you fuck up my pattern 'cause now that you matter I gotta deal with the good and bad  
I gotta deal with the thoughts of you and them in bed  
Soft spot for the boy I got it

Met him in college need 'em like bat need robin

He the best thing and the worst thing

If I'm the one you really love then why would you ever hurt me

Sit in my room, sit in my room and I assume shit

Love hurts and I'm guessin' I just bruise quick

Sleep on it in the bed alone then I call 'em 'cause I need 'em and I love 'em even when he wrong

Real love (real love, real love, real love)

What they know about real love?

Real love [2x]

Everyone plays the fool sometimes

Real love (real love, real love)

Let's talk about that real love

Real love [2x]

Everyone plays the fool sometimes

Send me a sign if you got my back

I'm lookin' towards the sky and it all seems black

I been cryin' in this car with the windows rolled, I'm outta control

I'm waitin' on which way do I go

I gotta man that knows me better than myself

What if I leave and I never find nobody else

Don't wanna start from the top and do this over again

I want the nigga that I found back in twenty-o-ten (2010)

Is it real love?

'Cause I know what we had but it's nothing like what we have now

Man you're not the person that I knew but I'm tryin' 'cause it's you

I'm lyin' to myself 'cause I do

Wanna make it work when it won't

Say you'll change but ya don't

Happens every time

You feed me the same lies

Tell me I can't go 'cause it's

Real love (real love, real love, real love)

What they know about real love?

Real love [2x]

Everyone plays the fool sometimes

Real love (real love, real love)

Let's talk about that real love

Real love [2x]

Everyone plays the fool sometimes

Oh oh [4x]

Everyone plays the fool sometimes

Oh ah (sometimes)

Oh oh

Everyone plays the fool sometimes  
Sometimes  
Everyone plays the fool sometimes  
Sometimes

If you leave me here then I just might fall  
Real love [3x]

If you walk away I'm not gonna call

'Cause baby if you leave me here... I'm already dead. (please don't) if you  
walk away take the heart out of my chest (please don't leave) real love [3x]
