

Want to slide on my ex and fuck your day up
But I can't get out of bed
Got me thinkin' of shit I shouldn't remember
It's floatin' inside my head
And you love it here, know you do
That's why you keep me so stressed
And you want me back, know you do
But you don't get a bitch back like that

Stressin' over you
You, you, you
Stressin' over you

How you call this love when you done put me through too much?
Causing all these tears like my heart wasn't enough
Took so many bullets like my life was on the line
I done showed up for you so many times
You would've had it made, what?
Eggs in the mornin', wake up
Don't even have to say none
Don't even have to say none
I would have took a pay cut
Well, temporarily
Better run it up to spend it on me
Soon as you get free
But you lied to me
You tryin' me
I put my wings on you
You took flight on me
We shouldn't have made it this far
Thinkin' honestly
I let you slide too much
You killed the vibe for me

Want to slide on my ex and fuck your day up
But I can't get out of bed
Got me thinkin' of shit I shouldn't remember
It's floatin' inside my head
And you love it here, know you do
That's why you keep me so stressed
And you want me back, know you do
But you don't get a bitch back like that

Stressin' over you
You, you, you
Stressin' over you
