

Bad Trip

Tiny Moving Parts

Will I suppress my doubts?
Will I ever figure it out?
Will I break into someone else?
Can you take care of me?
Can you solve everything?

I don't understand human existence
I don't understand life
We all move forward and fall in love
But I'm still stuck behind
I don't get it

I don't understand human existence
I don't understand life
We all move forward and fall in love
But I'm still stuck behind
I don't get it

I don't understand human existence
I don't understand life
We all move forward and fall in love
But I'm still stuck

The basement is flooded
And I'm sick of swimming
Everyone is upstairs
Dancing through the ceiling

Everyone, listen up!
I'm having a bad trip
May I start over?
Is this too much to ask for?
Everyone, listen up!
Begging for a reset
Disconnect the circuit

Play the drums, to a song
That I can nod my head along to
I can nod my head along to
I can nod my head along to
With you

I don't understand human existence
I don't understand life
We all move forward and fall in love
But I'm still stuck behind
I don't get it

I don't understand human existence
I don't understand life

Play the drums, to a song
That I can nod my head along to
I can nod my head along to
I can nod my head along to
With you
