

# Tangled Up

Tiny Moving Parts

If you want to go  
I understand  
It's never quite easy to plan  
Never satisfied  
With all the choices in my life  
So we take some steps forward  
Always moving closer to the door

(I never am)  
(I never am)

And I guess we're just silhouettes  
On the sidewalks  
We're tangled up in distress  
On every block  
But we try taking steps forward  
And I swear we're only getting closer

If you want to go  
Please tackle up the darkness  
Bury it in the mountains  
It'll dwell inside the forest  
I need to be in the sunlight  
I need to be in the sun

Constant circles we spin  
Tell myself "I'm okay"  
When I know deep down I never am  
Constant circles we spin  
Tell myself "I'm okay"  
When I know deep down I never am

(I never am)  
(I never am)

And I guess we're just silhouettes  
On the sidewalks  
We're tangled up in distress  
On every block  
But we try taking steps forward  
And I swear we're only getting closer
