

## Time Frame

### Tiny Moving Parts

Whisper echo messages around your room  
Do you really think they're true?  
Do you really think they're true?  
Alarming insights of strips you never write  
Do you really think they're true?  
Do you really think?

Will combust in the sky, they turn out the lights  
But don't you dare worry, I'll be right by your side  
Combust in the sky, when they turn out the lights  
But don't you dare worry

I'll go first, for what it's worth  
I'll go first, for what it's worth

I'll go first, for what it's worth  
I'll go first, I'll go first  
The solid walls, the sky moves on  
Fractions of light still scatter around us  
But the time remains stuck  
We can't let this moment slip up

The solid walls, the sky moves on  
Fractions of light still scatter around us  
But the time remains stuck  
We can't let this moment slip up

Over the holidays, when we lost touch  
I never thought I could love someone so much  
But the time frame remains stuck  
We can't let this moment slip up  
Over the holidays, when we lost touch  
I never thought I could love someone so much  
But the time frame remains stuck  
We can't let this moment slip up  
We can't let this moment slip up (we can't let this moment slip  
up)  
We can't let this moment slip by us
