

## Days Are Long, Nights Are Longer

Tiny Ruins

Days are long, nights are longer  
Without you, my love  
Time slows down for us two  
What you do reaches me  
A little while later

You write your dog she passed away  
You know I feel as though it was today  
And though it's been a while  
No doubt, you're still feeling low  
Just know time can't slow my thoughts down  
They're with you most of the time  
Most of the time

Days are long, nights are longer  
Without you, my love  
Is with you all of the time  
All of the time  
So you don't have to worry  
At any old time  
At any old time  
So long as I'm singing this rhyme

Do do do dooo  
Do do do dooo  
Do do do dooo
