

## Down Virginia Way

Tiny Tim

There's a light shining bright in the little cabin window  
Down Virginia Way  
And they say every night when the night shadows fall  
Mother's light, through the night seems to call

To her wandering son, his wandering is done  
Please come home to stay  
For a light still burns in the little cabin window  
Down Virginia Way  
Down Virginia Way

Somewhere there's a mother yearning  
Yearning for her son, you see  
Somewhere mammy's always calling  
Please come back to me

Now let's go!

There's a light shining bright in a little cabin window  
Down Virginia Way  
And they say every night when the night shadows fall  
Mother's light, through the night seems to call

To her wandering son, his wandering is done  
Please come home to stay  
For a light still burns in the little cabin window  
Down Virginia Way  
Down Virginia Way
