

# Have You Seen My Little Sue?

Tiny Tim

Have you seen my little Sue?  
She was here a week ago  
Or maybe two  
I wish I knew

Why I said the things I said  
When I think of how I must  
Have blown her head  
Wish I was dead

When she was mine I just abused her  
Now I know how it feels to lose her  
Gotta do something right away  
Susie, baby, hear what I say  
Took a long time before I realized  
You're the only one I have in store  
Don't close the door

Have you seen my little Sue?  
Has she found another love?  
Well wouldn't you?  
I wish I knew

Why I ever let her go  
How I'll live without her love  
I just don't know  
I just don't know

Why I gave her love away and set her free  
If you see Susie won't you send her back to me?

I love you darlin'  
You know I do  
I need you honey  
My little Sue

Gotta keep lookin' 'til I find her  
Hopin' her memories will remind her  
About the good times or few we had  
Baby don't think about the bad  
Just come home and let me love you  
There's no one could be above my girl  
We'll build a world

Have you seen my little Sue?  
She was here a week ago  
Or maybe two  
I wish I knew

Susie, come on home

(Have you seen my little Sue?)  
I love you darlin'  
(Have you seen my little Sue?)  
You know I need you  
(Have you seen my little Sue?)  
(Have you seen my little Sue?)
