

## Hot and Cold Water

**Tiny Tim**

Did you ever go to the faucet to look at the sink?  
Or course, there's hot water and cold water

Water that's hot  
Water that's cold  
They're not the same  
Need you be told  
If you can spell  
Then you will see  
'C-O-L-D' or 'H-O-T'  
Don't turn the faucet on till you have looked  
Unless you've got fingers that like to be cooked

Water that's hot  
Water that's cold  
They're not the same  
Need you be told  
Don't turn the faucet on till you have looked  
Unless you've got fingers that like to be cooked
