

She's Just Laughing At Me

Tiny Tim

She's so pretty
I wonder why she smiles
As she passes by
Could it be
She's just laughing at me?

I'm a loser
A clumsy clown
So why does she come around
Acting sweet?
She's probably laughing at me

Girls never gave me half a chance
I never got a second glance
So why does she keep smiling?
Could it be that I have the right
To think that she really likes
What she sees?
Or is she just laughing at me?!
