

# You Try Somebody Else

Tiny Tim

You try somebody else  
I'll try somebody else  
And when we do we'll both be blue  
And be back together again

You try painting the town  
I'll try acting the clown  
We'll travel fast but it won't last  
We'll be together again

Let's take our fun where we find it  
I know deep down in my heart  
If I was meant for you  
If you were meant for me  
Nothing can keep us apart

You try somebody else  
I'll try somebody else  
It won't take long to find we're wrong  
We'll be back together again

I'm so glad we had this understanding  
Because we're both acting strange  
We both need a change  
Maybe love has made us too demanding  
So sweetheart I think it best  
That we put love to the test

La-da-dee...  
And when we do we'll both be blue  
And be back together again

La-da-dee...  
We'll travel fast but it won't last  
We'll be back together again

Let's take our fun where we find it  
I know deep down in my heart  
If I was meant for you  
If you were meant for me  
Nothing can keep us apart

So you try somebody else  
I'll try somebody else  
It won't take long to find we're wrong  
We'll be back together again
