

Vacation

Tion Wayne

Baby why you worried
Why you stressing out
Girl arch your back I'm tryna stretch you out
Girl, I've been gone for a while
You've been patient
Girl I think we need a vacation
Fly out, With me
Girl I think we need a vacation
So fly out, With me

We don't need to fight
Let's just take a flight
I know you love to fly
Love it when I'm looking fly
Nah this ain't no fling
Love it when you call me king
Yeah I slip n slide
You hate how I risk my life
Big, whip
Flexing with my chick
Big, tings
I know you seen my pic
We do it in the bar, cause she said I make her laugh
I know you hate my past
But you said you'd take a chance

Take my ting off safety
And I let it boom
Man she know it's crazy
When I'm in the room
Gave that girl my car-key
And she made it vroom
Batty looking mm ah

Baby why you worried
Why you stressing out?
Girl arch your back I'm tryna stretch you out
Girl, I've been gone for a while
You've been patient
Girl I think we need a vacation
Fly out, With me
Girl I think we need a vacation
So fly out, With me

Don't switch on me
Act right
Don't give it to another nigga
Girl that's mine
Don't switch on me
Act right
Don't give it to another nigga
Girl that's mine

Yo
I got, gyal all on me
But don't switch on me
This ting half cruddy

We both get money
Act right
You know I got your back right
Love it when it's that time
When she got them pants tight
Got me like mmm

Take my ting off safety
And I let it boom
Man she know it's crazy
When I'm in the room
Gave that girl my car-key
And she made it vroom
Batty looking mm ah

Baby why you worried
Why you stressing out?
Girl arch your back I'm tryna stretch you out
Girl, I've been gone for a while
You've been patient
Girl I think we need a vacation
Fly out, With me
Girl I think we need a vacation
So fly out, With me
Baby why you worried
Why you stressing out?
Girl arch your back I'm tryna stretch you out
Girl, I've been gone for a while
You've been patient
Girl I think we need a vacation
Fly out, With me
Girl I think we need a vacation
So fly out, With me
