

# Who Can I Trust

Tion Wayne

Amount of things I do for man but they switch for the cash  
More time put my hand out try help man but they stab me in the back

Could I leave you with my ting in the room  
Or leave a milly in the room  
But I can show man love  
But I don't know about trust

Pain where my heart is  
Man I got to think twice how I start this  
I got friends from the start that departed  
Didn't see my whole grind till I charted  
They wan' be in my position  
But I make decisions, reminiscing  
My intuition, had me tripping  
I still grind every day 'cah I'm on a mission  
Man changed up my Rolly glisten  
I got fame but I'm a regular guy  
I got hoes but I know they wan' cuff on the sly  
I take fake love, real love all in my stride  
I'm a legend won't stop till the day that I die  
True say that he say he my mate  
But he pree my plate  
If thats money we chase  
I'm the first to the race  
How you saw me in beef  
You're the first to escape  
Man the way I done street and I made all the papes

Amount of things I do for man but they switch for the cash  
More time put my hand out try help man but they stab me in the back

Could I leave you with my ting in the room  
Or leave a milly in the room  
But I can show man love  
But I don't know about trust

Amount of things I do for man but they switch for the cash  
More time put my hand out try help man but they stab me in the back

Could I leave you with my ting in the room  
Or leave a milly in the room  
But I can show man love  
But I don't know about trust
