

Who's True

Tion Wayne

Gyal, don't play hard, I know you wanna go yard with me
She act like she never knew I'm a superstar
Ask your girls, they know who we are
Shit we done to get where we are
Pray and hope I don't see karma
All them nights I was on my last
I thank God that's in the past
Oh, Lord, show me who's true
She said she seen me on YouTube
I think she does juju
Love can turn man to a fool
Don't wanna meet no one new (Uh-huh)
'Cause I don't know who's who (Come on, come on)
Show me who's true (Yeah, T Wayne from the 9)
(JAE5)

Yeah, my life like a film
She ask how I make a mill' and still go on a drill
My ting in Tottenham said she wan' fuck with the real
I pray my brother Mad Mix gon' get his appeal
Only fuck with the real, only some left
Was runnin' from the old bill, now they upset
If love don't really cost a thing, what's the concept?
Cocktails, sippin' on the beach up in Dom' Rep'
Cases I caught weren't no misdemeanors
How we take four-four just to lick the dealers?
Hit the heaters, so I kiss and treat her
All our problems got smoked like Wiz Khalifa
Remember twenty-bag licks, I wanted it all
Now for a hundred-bag lick, I hang up the call
But all these people show me love, but want me to fall
But a wise man never said nothing at all

Gyal, don't play hard, I know you wanna go yard with me
She act like she never knew I'm a superstar
Ask your girls, they know who we are
Shit we done to get where we are
Pray and hope I don't see karma
All them nights I was on my last
I thank God that's in the past
Oh, Lord, show me who's true
She said she seen me on YouTube
I think she does juju
Love can turn man to a fool
Don't wanna meet no one new
'Cause I don't know who's who
Show me who's true

From the 9, see her step so class
Every time I think about her sex, oh, God
She a ten, so smart
Make my head go, making all my friends go gwan
Yo, all about my paper
Got rich now, everybody want a favor
But my babes told me, "Never put yourself in danger"
Said, "You're up now, why you rollin' with a shaver?"
Life changed from a L

Free my real niggas, get the fake in the jail
She actin' all funny like Dave Chappelle
But I see your teeth grinnin' when I gave you Chanel

Who's true?
Don't know who's true
Don't know who's true
Don't know who's true

Gyal, don't play hard, I know you wanna go yard with me
She act like she never knew I'm a superstar
Ask your girls, they know who we are
Shit we done to get where we are
Pray and hope I don't see karma
All them nights I was on my last
I thank God that's in the past
Oh, Lord, show me who's true
She said she seen me on YouTube
I think she does juju
Love can turn man to a fool
Don't wanna meet no one new
'Cause I don't know who's who
Show me who's true

So, gyal, don't play hard, I know you wanna go yard with me, yeah
She act like she never knew I'm a superstar, oh-oh-oh, yeah
Shit we done
Oh, yeah
