Lean

Ew I got lean, I got lean

Uh lean

All this ice in my cup I got lean  
I got purp, I got red, I got green  
I got bread, I got dope, I got cream  
Put her face in the pillow make her cream

I was just that nigga they was calling a damn meme  
Now they running outside to see me pulling off the scene  
They got million followers but ain't what it seems  
Two puffs nigga, yeah I'm sipping like a feen  
My vision blur  
Nigga two cups I almost hit the curb  
Her ass a pancakes and I'm sipping on some syrups  
Sipping on some sizzurp  
She got that magic like a wizard

I got more cups in the kitchen we can lean  
All this ice in my cups I got lean  
I got purp, I got red, I got green  
I got serve em less he coming with the cream

All this ice in my cup I got lean  
I got purp, I got red, I got green  
I got bread, I got dope, I got cream  
Put her face in the pillow make her cream

I was just that nigga they was calling a damn meme
