TisaKorean

It's more than just expressions
Don't use too much aggression
Before I teach ya ass a lesson
And I can't fall in love
This shit's way too much
Girl you got me stuck
Don't use too much aggression
Yay

Matter of time before I slide on you, I needed you
I need your affection
You changing your direction
These feelings a weapon
I feel more when I do not talk to you, talk to you
And I can not guess ya mood
Ya got me feeling breathless
Come to my side
Gone head and come to my side

It's more than just emotion
Don't use too much aggression
Before I teach ya ass a lesson
And I can't fall in love
This shit's way too much
Girl you got me stuck
Don't use too much aggression
Yay
