I like the way she fuck me
I like the way she suck me (iyes)
I like the way she hug me

She is not a employee but I bet I make her work
She wanna be around me like a motherfucking purse
At first
She thought I was a curse
Let my dick make her dumbass lurk
I have her all this beef and the jerk
Put your hands in the air (air)
Like we at the damn fair (uh huh)
Clap clap up up
Clap clap up up
Right leg left leg
Hands behind the bedspread
Hands up on your waist then you mother fucking go [?]
I like the way she get it
I like the way she get it
I like the way she get it
I like the way she get it
I like the way she get it
I like the way she get it (iyes club rockas)

I like the way she get it
And yes I gotta admit it
No Cinderella story but the shoe I bet you fit it
Yea they copy my swag but I swear I cannot paste that
Ima play your ass and I don't even play no apex
Yes you knew her but she fuck me like we go way back
When that new Tisa drop they gon grab the aux and play that
I know you hate that but listen

I already know she a thot
