

Babies Bite Back

TISM

You stroke them with your knitting needles
You smother them with tender loving care
You raise them to your inhibitions
You drown them with gin
Babies bite back, babies bite back, babies bite back
Babies bite back, babies bite back, babies bite back
Well, don't turn your back now
Keep your wide eyes peeled, yeah
Don't turn your back now
Because when you least expect it
Babies bite back, babies bite back, babies bite back
Babies bite back, babies bite back, babies bite back
What once was an elephant

Is now a set of killing teeth
What once was an elephant, yeah
Is now a set of killing teeth
Babies bite back, babies bite back, babies bite back
Babies bite back, babies bite back, babies bite back
Babies bite back, babies bite back, babies bite back
Babies bite back, babies bite back, babies bite back
Babies bite back, babies bite back, babies bite back
(What once was an elephant is now a set of killing teeth)
Babies bite back, babies bite back, babies bite back
(What once was an elephant is now a set of killing teeth)
