

Garbage

TISM

I met a member of Generation X
Said, "What's in with you kids these days?
I'm so old I'll probably never've heard of it" -
And then he said, "Purple Haze."

Now I know that we should separate our garbage -
The environment'll give us thanks;
But it's going too far when teenagers re-cycle
Their parents' adolescent angst.

chorus: Do you wanna save the world? Don't recycle
garbage.

Monday night is 50's night;
Tuesday night is 60's night;
Wednesday night is 70's night;
Friday night is Thursday night.

Paul McCartney once said that the Sex Pistols
Were another band doin' Chuck Berry;
At the time I thought, "You boring old wanker",
But now I think it's downright scary.

What's so good about the 60's?
That we gotta keep rewindin' the clock?
You know the best thing about the 60's?
They'd never heard of "Classic Rock."
