

My father said, "Don't be so scared"  
Driving home all alone you're in a hospital bed  
I closed my eyes  
Ignored the signs  
Tried to wake up from a dream it's not working this time

If I said your name 27 times  
Would that bring you back to life?  
If I said your name 27 times  
Would that bring you back to life?

Do you remember your lucky number?  
Your superstition has me buried six feet under

If I said your name 27 times  
Would that bring you back to life?  
If I said your name 27 times  
Would that bring you back to life?

Do you remember your lucky number?  
Do you remember your lucky number?

If I said your name 27 times  
Would that bring you back to life?  
If I said your name 27 times  
Would that bring you back to life?
